Subject: RE: (UIC Grant Application Amount for FY15-FY16) Webinar for EPA Grant Applicants/Recipients Scheduled

Hi Jerry,

Since the actual amount of money that will be awarded and allocated to the UIC primacy states must go through the formula with input values that change each year, it might be satisfactory to keep to the recent historical amounts or just a little above that. In either case – where you did not request enough or you requested too much – there will be a need to adjust the application and workplan, etc. because it is not possible to predict the actual amount accurately.

So, keep to the recent historical values with a minimal above that – like 10%? That is what we have been approaching for at least 10 years, and it works well. So, when the actual amount comes in, you will simply decrease the amount you all requested.

Let me know and we'll discuss.

Are you going to take the webinar? I will be just coming back from leave, so I think I will be able to do so.

George

Hi George,

Thanks for the invite.

As you can imagine, we're concentrating on the AE issue, but I'll start working on the next round's grant application. What would be a reasonable starting point for a request?

Jerry

Hi Jerry, this is fyi. Let me know if you are interested in participating.

How are you all progressing on submitting your next 2-year UIC grant application for 2015-2016?

George

Subject: Webinar for EPA Grant Applicants/Recipients Scheduled

Hello Water Project Officers:

Please pass on the following information regarding OGD's upcoming Grants Award Process webinar.

OGD has scheduled another Grants Award Process Webinar for August 12, 2014 at 2pm ET. This is the same webinar we generally offer quarterly to potential applicants and recipients. It covers grants management topics, including how to find and apply for grant opportunities and preparing a proper budget detail. We also host a Q&A at the end of the webinar.

Please pass this information on to any recipients and potential applicants you think may be interested. Just a reminder that this webinar is intended for our external grants community.

Info on the webinar is located at <http://www.epa.gov/ogd/training/grantaward.htm>.
